BISHOP HARTZELL TALKS ON AFRICA

Tells of Missionary Work in Dark Continent.

SERMONS IN MANY CHURCHES

Celebration of "Diamond Jubilee" for Seventy-fifth Anniversary of Country-President and Mrs. Roosevelt Attend-To Raise \$300,000.

Missionary work in Africa, what it has done and what it hopes to do, was the subject of sermons yesterday in many of the Methodist Episcopal churches of

It is the plan of those interested to raise \$300,000 for the fur-

herance of the work. Bishop Joseph C. Hartzell, who has een for the last twelve years at the ead of the work in Africa, opened the jubilee at the Foundry Methodist Episcopal Church, before a notable congregation, in which were President and Mrs. Roosevelt, Speaker Cannon, and Amassador James Bryce and Mrs. Bryce.

Prominent Men Attend. Among the prominent Methodists at the service was Dr. W. F. Davidson, of the American University, who offered a prayer. Rev. Dr. R. M. Moore, pastor of the church, presided, and District Superintendent J. W. R. Sumwalt pre-

sented Bishop Hartzell. Bishop Hartzell is a friend of Mr. Roosevelt, of the late Cecil Rhodes, and of the representatives of many of the nations having lands in Africa. His efforts in introducing Christianity into Africa have earned for him the name of being one of the greatest eeclesiastical statesmen in the world, and his knowledge of Africa's needs is profound. His sermon was a thoughtful statement

of the situation facing missionaries in MYPOGRAPHICAL UNION MEETS iculties in the way of evangelization, the tone of his remarks was distinctly op-timistic, and he drew a picture of great things for the future.

Vastness of Africa.

He explained the vastness of Africa with its 6,000 miles north and south and 5,000 miles east and west. Speaking of the proportion of the world's population Sympathy Expressed for Hatters on that lives in Africa, Bishop Hartzell said that "every tenth child born into the world looks up into the face of a black

But the black man's chance is coming, and in the progress of the world in civilization it is the duty icised" at the meeting, as was prophesied the world over. It offers a field possible made through the recommendations of of most splendid results, a field where the Civil Service Commission on an apthe lifework of hundreds of unselfish missionaries may be perpetuated and carried and southern parts of the continent where the natives have never heard the gospel.

Lack of Missions.

"There are whole tracts where missi have not yet been established, where it is as if in this country there were a mission in Texas, another in Maine, and not a teacher of God's religion between, And ret 2,000 years have elapsed since Christ died on the cross for the salvation of the world, in a land having the oldest civilition then in existence.

'Most of the great churches in Europe and America have started Christian move ments in Africa. There are to-day 3,000 missionaries, helped by 16,000 native workers. There are more than 1.000 main native stations, and about 5,000 outstations, with which are connected about 1,000,000 worshipers. But it must be remembered that every year one-tenth of the world's population is born in Africa."

Bishop Hartzell will remain in the

nited States the greater part of the year and will be at the head of the campaign to raise \$300,000 for the work. His American headquarters are in Cincinnati.
